STEEL CABLE REELS

We manufacture cable reels made of steel with a flange diameter of 630 mm to 10,000 mm and a load capacity of up to 250 tons.

These are shipping reels, reusable reels or machinery reels be painted or made of galvanized steel.

We also produce the appropriate work tools.

On request we can provide you with a quotation.

Our cable reels made of steel are particularly suitable for high voltage cables in the onshore and offshore industry.

DIN EN ISO 3834-3: Quality requirements for fusion welding of metallic material incl. DIN EN ISO 15614-1 for S355
